

Dear Applicant/Homeowner,

Attached is one of the following permits:

- Permit to Install and Operate Liquefied Petroleum Gas and/or Equipment
- Permit to Install and Operate Oil Burning Equipment

Note: A \$55.00 permit fee is due at the time of submittal. Permits for each additional appliance beyond the original permit are \$15.00.

The attached form must be filled out by the installer and returned to the Fire Department for the Fire Chief or his designee to sign. Once the form is signed, a permit number will be issued and the application may be used as a temporary permit authorizing the installation of the equipment.

When the installation is complete, please contact the Hanover Fire Department at 640-3341 or 640-3342. The Fire Chief or his designee will need to conduct an inspection before this permit file may be closed. It is best to call about a week in advance to schedule the inspection.

Please note, effective 07/01/08, there will be a \$50.00 re-inspection fee for those installations that fail the initial inspection and for scheduled appointments (not ready for inspection) that are not cancelled prior to the Fire Inspector's arrival.

Sincerely,

Hanover Fire Department
