Zoning Board Chair, Arthur Gardiner, opened the site visit at 2:00 pm. The purpose of this meeting is to hold a site visit prior to the public hearing on the request for a Park & Ride facility in order to allow Board members to become acquainted with the specifics of the physical site.

Matt Purcell and Todd Menees led the group in the site visit. A site plan was handed out, showing clearly numbered staked-out points along the edge of the proposed parking facility, as well as numbered points within the facility for different specific functions.

Several requests for additional information, to be presented at the public hearing, were made. In particular, a copy of the Traffic Analysis was requested; a sample of the porous pavement (if available) and a description of the UNH study concerning the “filtering” capacity of the various elements of the proposed parking lot.

A copy of the hand out is attached to the minutes and included in the case file.

The public hearing on the case will be held Thursday, June 25, 2009 at 7:00 pm in the Town Hall Board Room.

There was no other business.

The site visit ended at 3:00 pm.

Respectfully submitted,
