

Town of Norwich

August 20, 2011

Dear Selectboard,

I wish to apologize for my inappropriate behavior at the Selectboard meeting on August 10. I cherish the character of this small town and yet my frustration and anger were insulting to the civility of this community. I can only admit my unfortunate mistake and hope that in time what good I can bring to the community will outweigh the damage from this event. That was not the sort of person I want to be and it is certainly not the model I wish to provide for my children.

Please accept my sincere regret.
