Dear Norwich Selectboard,

Pete Webster's report on the preparations and responses made by the town, specifically by Andy Hodgdon and the Department of Public Works, Steve Leinhoff, Neil Fulton, along with the entire volunteer Fire Dept., and our Police Dept., brings into sharp focus how incredibly fortunate we are to have such smart, forward thinking, professional and dedicated people taking care of us and our town. Experience, professional knowledge, the ability to plan and immediately execute effective emergency action, all critically important attributes for those we entrust with our safety and well-being, were clearly demonstrated by this remarkable team.

We look to you, the Selectboard, to make certain that these skilled and dedicated employees of our town receive the recognition and support they deserve.

Brooke and Jim Adler
