To Selectboard,

As a 13-year-old in Norwich Vermont I use the Norwich Pool a lot. As I understand the dam has been destroyed by hurricane Irene. Hurricane Irene destroyed many things in Norwich like a roads, people's lawns, and so many other things. But the Norwich pool has been very useful to us as a hangout and a place to cool off. Most people of Norwich would agree that the Norwich Pool has to be rebuilt. I know as a builders son that you will have to get permits and there will be other legal issues but I really want my Norwich pool back.
