

## Deer Repellent

Here is a recipe that one of our members has used for 15 years with great success.

In a 5 gallon bucket

Combine:

- 4 eggs
- 1 cup of garlic powder
- 1 cup of cayenne pepper
- 2 gallons of hot water

Whisk together

Add 4 squirts of liquid detergent and mix

Using a turkey baster, apply a good squirt every 15 or 20 feet around the perimeter of the property you wish to protect

Protect individual plants or shrubs by direct application

Start this in March or April. **REPEAT this treatment monthly through the fall.**
